One of the things that impressed us most during this school year was the capable participation of our Grade Nine students in their Career Day.

Their outstanding performance has tended to confirm our faith in that portion of our population commonly known as Junior Teens.

It is obvious that our Junior High people desire to take part in meaningful activities, and that they are interested in having personal goals for the future.

There is a lesson in this for all of us - parents, teachers and pupils alike. It would appear that more time and attention might well be given to establishing realistic personal goals for the future.

Of course these goals may change with the passage of time and the accumulation of experience.

However, the choice of a goal may well provide an incentive for organized and disciplined activity - both at home and in school.

Thus in many cases a pattern of frustration might be transformed into a blueprint for success.

H. M. Gerry - Principal
V. P. Nakonechny - Ass't. Principal
B. V. Schrader - Ass't. Principal.

PRESIDENT'S MESSAGE

By the time this Yearbook is in your hands the 1967-68 school year will be almost over.

We may rightly claim that it has been a very successful year in those areas for which your Students' Union has special responsibilities. Fortunately a high standard of excellence has been reached in other areas as well.

A good proportion of our students obtained Honour standing in their academic work.

Our dances have been well attended and our Lit. programs have received enthusiastic support.

There has been a great deal of activity in sports - both at the school level and in competition with other schools.

Our students participated fully in special events held in the school such as Career Day, Education Week, and a Fashion Show.

It might well be said that our school has been a training ground for meeting the problems to be faced in Senior High School and in life.

May I extend to every student in Hardisty Junior High School a most cordial wish for happiness and success in whatever direction the future may lead them.

Chris Malcolm
